RE: Industrial Engineering, Inc.; David Exe, PE et al.

To whom it might concern;

Industrial Engineering, Inc has provided the MEP engineering design for my firm for several projects over at least the past 10 years. Projects included manufacturing facilities, community service facilities, historic renovation, general business and residential. Mr. Exe and his associates have always been most competent and experienced. In every project I have always found them to be timely and to have cost effective and thorough designs.

Should you have any concerns regarding associating with them please do not hesitate to contact me,

Sincerely,

A handwritten signature in blue ink that reads "RS Baclawski". The signature is written in a cursive, flowing style.

Robert Baclawski, RA, SARA, NFPA, ICC
