

To Whom It May Concern,

I am writing to recommend Industrial Engineering, Inc. (IEI) and David Exe. IEI worked with us at our El Paso, TX Plant as Design Engineering Group for our new Plant Electrical Distribution System and worked with me in my position as Sr. Field Electrical Engineer.

Dave Exe was my principle engineer and always available to answer any questions that were encountered before and during our project. During his time with my team, he was instrumental in helping our project met all our installation goals.

I've always put a premium on "saying what you are going to do" and "doing what you say" among my team members and David never failed to deliver.

IEI and David were a delight to work with and I wouldn't hesitate to hire them again.

Should you have any further questions, feel free to reach me at 479-264-4580.

Thanks,

Ronnie Beasley  
Sr. Field Electrical Engineer  
Packaging Corporation of America
